Career Objective

To contribute to cutting-edge AI/ML research and engineering teams by leveraging strong coding ability in Python, hands-on experience with AI/ML projects, and expertise in frameworks such as TensorFlow and PyTorch. Seeking to apply knowledge in NLP, computer vision, speech processing, and generative AI models to advance impactful research and product development.

Experience

Internship - NIELT (May-Aug 2024)

- Developed ML model for spacecraft structural health monitoring with 90% accuracy.
- Built movie recommendation system using collaborative filtering in Python.

Education

- B.Tech in Artificial Intelligence & Data Science - SRKR Engineering College, Bhimavaram (2022-2026), CGPA: 8.77
- Intermediate (MPC) - Sri Chaitanya Junior College, Vijayawada, 95.1%
- SSC - Holy Faith English Medium High School, Addanki, 99.6%

Projects

CI/CD Pipeline Automation - Automation

Designed Jenkins pipelines; reduced manual effort by 40%.

Dockerized Web Application - Containerization

Containerized Flask app with Docker; deployed on Kubernetes cluster.

Cloud Infrastructure Monitoring - Monitoring

Configured Grafana dashboards with AWS CloudWatch; improved incident response by 25%.

Serverless Data Processing - Data Engineering

Built ETL workflows using AWS Lambda + S3.

Healthcare Data Pipeline Simulation - Data Pipeline

Python + SQL ETL workflows.

Unified Data Platform - Data Integration

ERP + SQL optimization; 30% faster queries.

Flight Delay Prediction - Machine Learning

Developed ML model using historical flight data; reduced error rate by 25%.

AI-Powered Invoice Processing - Deep Learning

Built deep learning pipeline with TensorFlow + OpenCV; improved OCR accuracy by 30%.

TapathiAI Workflow Automation - Automation

Automated repetitive workflows using Selenium; reduced manual effort by 60%.

Skills

- Programming & Scripting: Python, Java, C, C++, Scala, SQL, Bash
- Frameworks: TensorFlow, PyTorch, Scikit-learn, OpenCV
- AI/ML Expertise: NLP, Computer Vision, Speech Processing, Generative AI, LLMs, Deep Learning
- Cloud & Tools: AWS, Docker, Kubernetes, Jenkins, Airflow, Git
- Data Engineering: ETL, Databricks (PySpark/SQL), SQL optimization
- Visualization: Power BI, Tableau, Matplotlib, Seaborn
- Databases: MySQL, PostgreSQL, MongoDB
- Statistical Modelling & Optimization: Regression, Classification, ML fairness principles

Achievements

- Ranked consistently in top 5% of academics.
- Active contributor on GitHub and coding platforms.

LinkedIn: [linkedin.com/in/shaikkabeeruddin](https://www.linkedin.com/in/shaikkabeeruddin) | GitHub: github.com/shaikkabeeruddin | LeetCode: leetcode.com/shaikkabeeruddin

- Competitive programming ratings on Codeforces & CodeChef.

Soft Skills

- Collaboration with cross-functional teams
- Analytical problem-solving
- Leadership and adaptability
- Strong communication and documentation

Languages

- English | Telugu | Hindi
