Career Objective

- To contribute to Motorola Solutions' IT Cloud Operations team by leveraging my expertise in cloud platforms, CI/CD pipelines, automation, and monitoring tools, while gaining hands-on experience in scalable infrastructure and DevOps practices.

Education

B.Tech in Artificial Intelligence & Data Science, SRKR Engineering College, Bhimavaram (2022-2026), CGPA: 8.77

Intermediate (MPC), Sri Chaitanya Junior College, Vijayawada (2020-2022), Percentage: 95.1%

SSC, Holy Faith English Medium High School, Addanki (2020), Percentage: 99.6%

Technical Skills

- Programming & Scripting: Python, Bash, SQL, C, C++, Java
- Cloud Platforms: AWS, Azure, Docker, Kubernetes
- Automation Tools: Jenkins, Ansible, Airflow, Puppet
- Monitoring Tools: Grafana, Nagios, AWS CloudWatch
- Data Engineering: ETL, Databricks (PySpark/SQL)
- Visualization: Power BI, Tableau, Matplotlib, Seaborn
- Databases: MySQL, PostgreSQL, MongoDB
- Version Control: Git, GitHub, CI/CD workflows

Internship Experience

- NIELT Internship (May-Aug 2024): Developed ML model for spacecraft structural health monitoring (90% accuracy). Built movie recommendation system using collaborative filtering in Python.

Projects

- CI/CD Pipeline Automation: Designed Jenkins pipelines for automated builds and deployments; reduced manual deployment effort by 40%.
- Dockerized Web Application: Containerized a Python Flask app with Docker; deployed on Kubernetes cluster for scalability.
- Cloud Infrastructure Monitoring: Configured Grafana dashboards with AWS CloudWatch metrics; improved incident response time by 25%.
- Serverless Data Processing: Built ETL workflows using AWS Lambda + S3; automated ingestion of large datasets.
- Healthcare Data Pipeline Simulation: Designed ETL workflows to process synthetic healthcare claims data using Python + SQL.
- Unified Data Platform: Integrated ERP and operational data into a centralized platform; improved query performance by 30%.
- Flight Delay Prediction: Developed ML model using historical flight data; reduced error rate by 25%.
- AI-Powered Invoice Processing: Built deep learning pipeline with TensorFlow + OpenCV; improved OCR accuracy by 30%.
- TapatihAI Workflow Automation: Automated repetitive workflows using Selenium and scripting; reduced manual effort by 60%.

Achievements

LinkedIn: [linkedin.com/in/shaikkabeeruddin](https://www.linkedin.com/in/shaikkabeeruddin) | GitHub: github.com/shaikkabeeruddin | LeetCode: leetcode.com/shaikkabeeruddin

- Ranked consistently in top 5% of academics.
- Secured 95.1% in Intermediate and 99.6% in SSC.
- Active participant on coding platforms (LeetCode, GitHub).

Soft Skills

- Communication, Collaboration, Problem-solving, Analytical Thinking, Adaptability, Attention to Detail

Languages

- English, Telugu, Hindi
