Career Objective:

To contribute to EY as an Analyst in Tech Consulting by leveraging strong programming ability, analytical thinking, and hands-on project experience in application development, SAP support, and technology transformation. Seeking to collaborate with cross-functional teams to deliver innovative solutions aligned with EY's mission of building a better working world.

Education:

- B.Tech in Artificial Intelligence & Data Science - SRKR Engineering College, Bhimavaram (2022-2026), CGPA: 8.77
- Intermediate (MPC) - Sri Chaitanya Junior College, Vijayawada, 95.1%
- SSC - Holy Faith English Medium High School, Addanki, 99.6%

Experience:

Internship - NIELT (May-Aug 2024)

- Developed ML model for spacecraft structural health monitoring with 90% accuracy.
- Built movie recommendation system using collaborative filtering in Python.

Projects:

- Application Development - Student Portal: Designed and implemented authentication, dashboards, and course management features using Node.js, React, and SQL Server. Improved student access and reduced admin workload.
- SAP Application Support - Mock Implementation: Assisted in design, build, and testing of SAP modules for academic project. Documented processes and supported troubleshooting.
- CI/CD Pipeline Automation - Backend: Configured Jenkins pipelines integrated with GitHub Actions for automated builds and deployments. Reduced manual effort by 40%.
- Workflow Automation - TapathiAI: Automated repetitive workflows using Selenium and Python. Reduced manual effort by 60% and improved accuracy.
- AI-Powered Invoice Processing - Deep Learning: Built OCR pipeline using TensorFlow and OpenCV to extract text from invoices. Improved OCR accuracy by 30%.
- Flight Delay Prediction - AI/ML: Preprocessed historical flight data and trained ML models using scikit-learn. Reduced error rate by 25%.

Skills:

- Programming Languages: Python, Java, C++, SQL.
- Application Development: Node.js, React, Flask/FastAPI.
- SAP Support: Basic design, build, and test exposure.
- Databases: MySQL, PostgreSQL, MongoDB.
- Cloud & DevOps Tools: Docker, Kubernetes, Jenkins, GitHub Actions, AWS.
- Analytical Thinking: Requirements analysis, problem-solving, documentation.
- Communication: Strong written and verbal communication skills; effective collaboration.

Achievements:

- Ranked consistently in top 5% of academics.
- Active contributor on GitHub and coding platforms.
- Competitive programming ratings on Codeforces & CodeChef.
- Presented technical paper on application development at college symposium.

Soft Skills:

Collaboration | Analytical problem-solving | Adaptability | Communication & documentation

Languages:

English | Telugu | Hindi
