

SHAIK KABEERUDDIN

CAREER OBJECTIVE

To contribute meaningfully to a forward-thinking organization by leveraging my technical and interpersonal skills, continuously learning, and collaborating with diverse teams, while striving to achieve both individual and organizational goals.

EDUCATION

B. TECH in Artificial Intelligence and Data Science

– [2022 – 2026]

SRKR ENGINEERING COLLEGE, BHIMAVARAM
CGPA – 8.76 CGPA

INTERMEDIATE in MPC – [2020 – 2022]

SRI CHAITANYA JUNIOR COLLEGE, VIJAYAWADA
PERCENTAGE – 95.1%

SECONDARY EDUCATION(SSC) – [MARCH - 2020]

HOLY FAITH ENGLISH MEDIUM HIGH SCHOOL, ADDANKI
PERCENTAGE – 10 CGPA

PROJECTS

Project on Face Detection Alarm Camera, a Face Detection and Machine Learning project

- It is a project that solves a real time security problem by combining the face-detection, camera and alarm into one and improving their efficiency. Here the camera detects the faces and adds into logs for known faces, otherwise rings an alarm for suspicious and unknown faces. It includes different authorizations for different users, police mode for threats and I want to add even more. It is build using Python, Full Stack, Machine Learning Algorithms and advanced technologies.

Project on Structural Health Monitoring of a spacecraft

- In this we built a model which predicts the amount of damage by the values of factors influencing the spacecraft using Machine Learning. It will track, warns, predicts and analyze by using the sensor data.

Worked on an AgenticAI named TapathiAI which is an automated website to post content in different social medias

- In this building this I worked on selenium, Photoshop Scripting and many more tools that it can post in the social media just by one click, by creating different input pipelines for different operations held in it and created an eye catching website for that using ReactJs and Python.

Worked in a project called Online issuance of Caste and other certificates by Revenue Department need real-time monitoring

- It is actually a project that assures the certificate under some criteria's and also generates the certificates automatically that are given by Revenue Department using python and some advanced python libraries, it includes smart ledgers contracts and Blockchain for security.

TECHINICAL SKILLS

- Programing Languages:**
PYTHON, JAVA.
- Web Technologies:**
HTML, CSS
- Data Bases:**
MySQL
- Tools:**
Jupyter, VS Code Editor
- Libraries:** Numpy, Pandas,
Selenium, Scikit-learn,
Matplotlib.

INTERESTS

- Leading a Team
- Participating in Tournaments
- Exploring New Things
- Playing Football

LANGUAGES KNOWN

- English
- Telugu
